Substitute Lecturer: Inés Loring Moxo ([inesloringmoxo@gmail.com](mailto:inesloringmoxo@gmail.com))

### **Objectives**

Understand the city of Seville and its artistic heritage combining the literature of Seville with the practical art of painting. To have a profound knowledge of a city and its heritage requires a very careful study of its most emblematic places. Painting gives one a greater vision of the city. We choose different techniques: pencil, charcoal, watercolor, and ink, etc. The students pass enjoyable sessions in the parks, plazas, streets and monuments of Seville, the Guadalquivir River, the Alcázar, the Barrio Santa Cruz, taking time to study their subject, its form and history. They will get to know the city, its hidden places and architecture like no other student can hope to do. At the end of the semester the students will have a fine collection of drawings and paintings which make great souvenirs and gifts for their friends and families. Also, they will acquire a great understanding of painting; perspective and composition which will help them appreciate art for the rest of their lives.

### **Methodology**

The students make visits to the monuments, plazas and parks of Seville while drawing and painting. Every visit includes an introduction to the site, its history, its architecture, its figures and legends. In each class the students learn aspects of drawing and painting: color, composition, etc. Classes are conducted in the classroom or outdoors. Every week we visit different locations. We will discuss the literature related to each place, while we draw and paint.

The classes are in chronological order to better understand the monumental history of the city. We will start with the Romans by drawing in the Archeology Museum. Then we study Islamic Seville. Then we look at medieval Seville at the Cathedral. We search out themes from the Golden Age of Cervantes. We learn about Romanticism in the María Luisa Park.

The students will read literary passages about Seville; the subjects that we paint and draw are related to the readings.
